### SECTION 4 - FIRST-AID MEASURES

<b>Skin</b>	Remove any contaminated clothing. Wash thoroughly with soap and water. If irritation or adverse symptoms develop seek medical attention.
<b>Eyes</b>	Remove any contact lenses at once. Flush eyes with running water. Ensure adequate flushing by separating the eyelids with fingers. If irritation or adverse symptoms develop seek medical attention.
<b>Ingestion</b>	Rinse mouth and drink plenty of water. If symptoms persist consult a doctor.
<b>Inhalation</b>	Remove to fresh air, if coughing, breathing becomes labored, irritation develops or other symptoms develop, seek medical attention at once, even if symptoms develop several hours after the exposure.

### SECTION 5 - FIRE-FIGHTING MEASURES

<b>FIRE EXTINGUISHER MEDIA</b>	Water spray, foam, carbon dioxide or dry chemical.
<b>SPECIAL FIRE FIGHTING PROCEDURES</b>	Burning will produce carbon dioxide, carbon monoxide and metal oxides. Firemen should be equipped with SCBA with a full face piece operated in the positive pressure demand mode with appropriate turnout gear and chemical resistant personal protective equipment.
<b>UNUSUAL FIRE AND EXPLOSION HAZARDS</b>	Concentrated dust may present an explosion hazard.

### SECTION 6 - ACCIDENTAL RELEASE MEASURES

<b>STEPS TO BE TAKEN IN EVENT OF SPILL OR RELEASE</b>	Remove all sources of ignition. Wear appropriate personal protective equipment as specified in Section 8. Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparkling tools and equipment. Reduce airborne dust and prevent scattering by moistening with soapy water. Pick up spill for recovery or disposal and place in a closed container.

<b>HANDLING</b>	Avoid dust formation and control ignition sources. Employ grounding, venting and explosion relief provisions in accord with accepted engineering practices in any process of capable of generating dust and/or static electricity. Empty only into inert or non-flammable atmosphere. Emptying contents into a non-inert atmosphere where flammable vapors may be present could cause a flash fire or explosion due to electrostatic discharge. Do not use near food or drink. Avoid eye contact. Use with adequate ventilation. Wear personal protection equipment recommended in section 8. Reseal containers immediately after use.
<b>STORAGE</b>	Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Do not store with food or drink.
<b>OTHER PRECAUTIONS</b>	Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities.

## SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>EXPOSURE LIMITS</b>	OSHA Permissible Exposure Limit (PEL): 15 mg/m <sup>3</sup> total dust. ACGIH Threshold Limit Value (TLV): 10 mg/m <sup>3</sup> for total dust for stearates.
<b>RESPIRATORY PROTECTION</b>	Work ambient concentrations should be monitored and if airborne concentrations are expected to exceed acceptable levels wear a NIOSH/MSHA approved dust air-purifying respirator. When using respirators refer to OSHA's 29CFR 1910.134.
<b>VENTILATION</b>	Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below level of overexposure.
<b>EYE PROTECTION</b>	Safety goggles recommended. Permanent eyewash is highly recommended.
<b>HAND PROTECTION</b>	Protective gloves recommended.
<b>OTHER</b>	Emergency showers and eye wash stations should be available.
