

COAD® 26

Zinc Stearate

DESCRIPTION

COAD® 26 Zinc Stearate is an extremely uniform, high purity zinc stearate. It offers good melt clarity and heat stability in polymer applications.

TYPICAL PROPERTIES

Total Ash %	13.6
Moisture, %	0.2
Free Fatty Acid, %	0.2
Softening Point, °C	120
Top size microns %98	35
Particle size microns, MV	11
Fineness % thru 325 mesh	100

APPLICATIONS

Polymer processing: COAD® 26 zinc stearate is used as a lubricant and is an excellent mold release for polymers used in indirect food contact applications in compliance with FDA Title21 CFR.

ADDITIONAL INFORMATION

- Other – See SDS for additional health, safety, and environmental information.
- Packaging – COAD® and MATHE Calcium Stearates are packaged in various sized multiwall bags and supersacks, unitized on non-returnable wooden pallets. Please contact your Norac sales representative to discuss your special packaging requirements.
