

NORAC® XL-65A

DESCRIPTION

NORAC® XL-65A is a specially formulated lubricant designed for use in PVC pipe, siding and fence.

NSF / PPI

NORAC® XL-65A is NSF and PPI certified as a paraffin functional equivalent at the recommended use level of 0.7 to 1.6 phr.

TYPICAL PROPERTIES

Specific gravity	0.94
Softening point	57 – 59° C

ADVANTAGES

- Superb lubrication properties for PVC pipe, siding, fence applications
- Used in place of standard paraffin waxes, NORAC® XL-65A provides superior lubrication at lower dosage
- Well-balanced rheological properties provide needed lubricity for high-output volume applications such as large-diameter pipe

ADDITIONAL INFORMATION

- Other – See SDS for NORAC® XL-65A for additional health, safety, and environmental information.
- Packaging – COAD® and MATHE Calcium Stearates are packaged in various sized multiwall bags and supersacks, unitized on non-returnable wooden pallets. Please contact your Norac sales representative to discuss your special packaging requirements.
