

NORSTAB® 62-R

DESCRIPTION

NORSTAB® 62-R is a high-grade CaZn-based heat stabilizer developed specifically for general-purpose filled PVC applications. It may be used in specific applications where the non-toxic properties of a CaZn stabilizer are important. It also performs well against general purpose liquid BaZn stabilizers, allowing the removal of barium and low VOCs.

TYPICAL PROPERTIES

Ca, %	2.3
Zn, %	1.8
Recommended use level	1.0 – 5.0 phr

APPLICATIONS

- Flexible PVC extrusion — e.g. gaskets, cove base, wire jacket, weather stripping, many others
- Flexible PVC injection molding
- PVC general purpose flexible compounds

ADDITIONAL INFORMATION

- Other – See SDS for NORSTAB® 62-R for additional health, safety, and environmental information.
- Packaging – COAD® and MATHE Calcium Stearates are packaged in various sized multiwall bags and supersacks, unitized on non-returnable wooden pallets. Please contact your Norac sales representative to discuss your special packaging requirements.
